

Pillow Bags

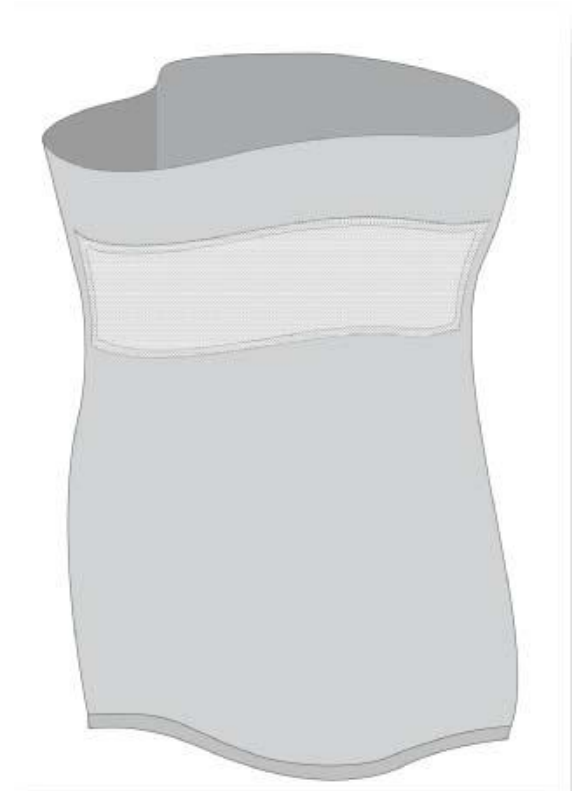

PILLOW SHAPED BAGS

These bags were designed for the production of spawn and biological control agents.

More and more, all over the world, insect biological control methods are used on different crops. Entomopathogenic fungi are one of these biological control agents, which are usually produced by using PP bags. Nematodes are another biological control agent. Both, the fungi and the Nematodes, have a preference for very high gas exchange filters which allows them to obtain the most oxygen and minimize moisture loss.

The pillow bags, are manufactured in PP or PE and can be filled to 100% of its capacity. The PP bags are sterilized in an autoclave, and since the PE bags cannot be sterilized with an autoclave, the PE bags are supplied sterilized through irradiation.

Where the filter is located on these types of bags, there can be only one hole which is the same size as the filter (**L hole**) or numerous tiny holes (**PIN holes**).

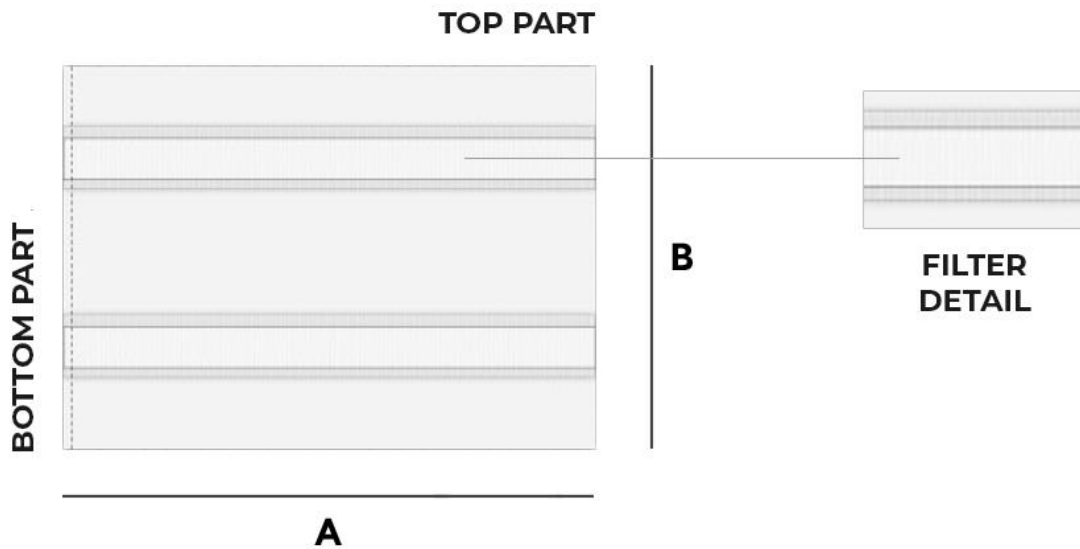

Sizes

THERE ARE 3 TYPES OF PILLOW BAGS; EACH OF THEM IS MANUFACTURED IN 2 SIZES

Measurement from bottom seal

MULTISTRIP 11

TYPES OF FILTER

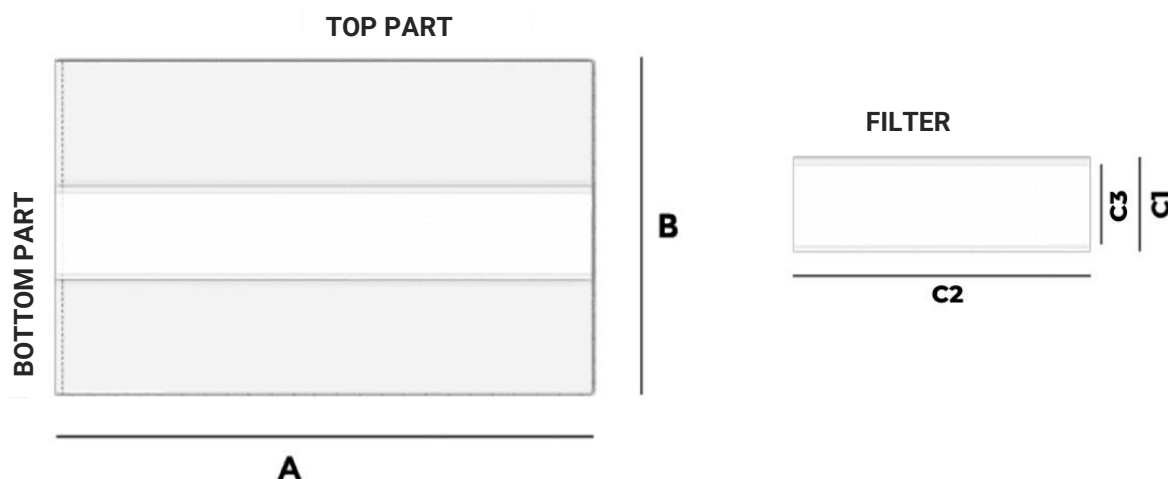

- Types of filter: filter A in PP bags and filter Tv in PE bags
- Bag perforation in the filter área: 3 rows of small tinys holes or cuts
- The filter is located on the exterior of the bag
- The filer width is 0,75" / 22 cm

Bag type	Multistrip 11, 19"		Multistrip 11, 24"	
A	48	19	61	24
B	35.5	14	35.5	14
	cm	inches	cm	inches

UNISTRIP 1

TYPES OF FILTER

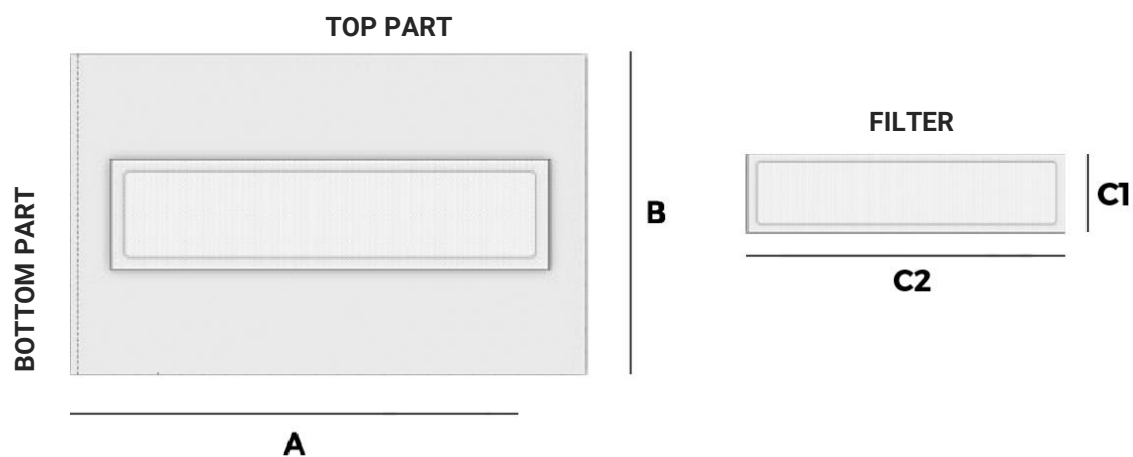

- Types of filter: A, T, B or Tv
- The filter is located on the exterior of the bag
- Bag perforation in the filter area: pin holes (numerous and small holes) or L holes (only one large hole)

Bag type	Unistrip 1, 19"		Unistrip 1, 24"	
A	48	19	61	24
B	35.5	14	35.5	14
C1	8.9	3.5	8.9	3.5
C2	48	19	61	24
C3	6.8	2.5	6.8	2.5
	cm	inches	cm	inches

UNISTRIP 2

TYPES OF FILTER

- Types of filter: A, T, B o Tv
- The filter is located on the exterior of the bag
- Bag perforation in the filter area: pin holes (numerous and small holes) or L holes (only one large hole)

Bag type	Unistrip 2, 19"		Unistrip 2, 24"	
A	48	19	61	24
B	35.5	14	35.5	14
C1	6.3	2,5	6.3	2.5
C2	33	13	46.7	18
	cm	inches	cm	inches
